

Do not judge a book by its cover.

So what is this book and its cover about? It represents a key holder. Let me help you to unlock the clues to the mystery it hides? Well to begin with the letters **MESS** is an abbreviation for the four big **MESS**engers in order of magnitude namely the **Moon**, the **Earth**, the **Sun** and the **Sky**. The Moon **hugs** the Earth in its 28 day orbit around it and **controls** the sea tides like a **rider** a **horse**, The Earth **gallops** through the endless Sky in its 365 day orbit around the Sun, which sits as still as a **chameleon** in the centre of our solar system with flaming hot **tongues** of sunlight coming forth from it as fast as a **chameleon's tongue**. On the right you have an **O** formed by the big yellow Sun, the much smaller Earth consisting of **sea** and **land** and the small red Moon in the middle. The word **MESSO** off course also means **messenger** in Italian. The most famous man in Italy is undoubtedly Pope Francis. In his favourite book there are 66 sub-books. The **19:19** does not indicate time on a digital watch, but rather refers to the 19th chapter in the 19th sub-book of the favourite book of Pope Francis. Read that and you would understand what the cover of this book is about. According to the favourite book of Pope Francis in the 27th sub-book and its 12th chapter (27:12) a **STAR** is a **messenger**. 2000 years ago, a **STAR** was born. His birth was celebrated by the heavens with the arrival of a new star over his town of birth Bethlehem. Wise men from the east discovered his coming by studying the heavens. What does this study of the heavens teach the wise men and women of today? I wonder!
